

## SCHOLZ & BARCLAY ARCHITECTURE

P.O. Box 1057, Camden, ME 04843  
Tel. 207.236.0777 Fax 207.236.0888  
email: [info@scholzandbarclay.com](mailto:info@scholzandbarclay.com)

Scholz & Barclay Architecture has been providing complete architectural services for over thirty-five years including architectural design, historic restoration, planning and feasibility studies. Our design process emphasizes a respect for the history and landscape of our region, and our goal is to harmonize with and enhance the context of our projects.

We enjoy finding the best possible solution to a client's goals. As a result, we are thorough in developing our understanding of our clients' design and budgetary needs. We assist our clients throughout all phases of their projects in order to attain the best results: programming; site planning; design; federal, state, and municipal approvals; contractor selection and construction.

Our award-winning practice works on diverse building types: private residences, municipal facilities, private institutions, offices and retail complexes. A large body of our work focuses on the renovation and adaptive reuse of existing structures. Our belief is that keeping existing buildings vital is the key to preserving vernacular architectural history, maintaining a sense of place and regional identity, and keeping construction debris out of the waste stream.

We have the experience to incorporate energy efficient design alternatives and sustainability into our projects. We believe it is our responsibility to provide clients with these concepts consistent with their project design goals.

**JOHN B. SCHOLZ, PARTNER**

**PROFESSIONAL LICENCES**

Registered Architect, New York, No. 11,806; 1972
